NEW SERIES! Jeremy The Best

Jeremy d

S1 E1: the birth of the clone slaughter machine

Warning: mature content is featured in this story, viewer discretion is advised!

April 29, 2026, (3:30PM), Burnsville, MN (empty plot near Forest Heights Duplexes)

Camera: Canon EOS R6 Mark II (2022)
Possessor: Jeremy

Jeremy: Introducing, THE CLONE SLAUGHTER MACHINE!!!, how does it feel guys!

Jonathan, Josh and Dad: *claps* yaaaaayyy!!!!

Abcde: *angry* you dumba! You can’t be the new main character!**

Jeremy: I will be after your series ends in 2027! *wink*

Jonathan: Will I be a main character!

Jeremy: Yes, we’ll both be main characters!

Abcde: also, why are you slaughtering clones?

Jeremy: That's actually a good question! I think it’s because the clone population needs to be controlled, as they’re too

powerful, the clone population has already gained over 1 million since 2021 with a gain of nearly 600 thousand just this year, so we need to control the population as it's going berserk, but it's not just that, a lot of these clones reproduce very fast, and a lot of the reproductions get birth defects, which gives them conditions such as autism or intellectual disableness, which makes them cause violence because they can't learn.

Joanthan: take clone jeremy for example, he's a bad guy because well, he's one of those reproduced clones, but unlike any, he's actually very smart, and he can control our minds with that high tech tablet if we're not careful, so yeah, good question abcde!

(4:10PM)

Jeremy: Let's test it out, first let's test it on clone jeremy, but first i have to make his backup clone.

10 minutes later…

(4:21PM)

Jeremy: Okay, i have the original clone jeremy, however, the backup has all his memories, so he's good, and i had to convert the original's memories to the backup, anyway, go on clone jeremy, IT'S FUUUN!!!

Clone jeremy: whatever you say… *jumps*

slams lid
presses buttons
presses big red button
machine starts whirring

Jeremy (excited): it's working!!!

machine spews out clear plastic sealed bags containing clone jeremy's organs

machine starts whirring louder as the slicing begins

SLASH!!!* *SLORSH* *SPLATTER

machine spews out many plastic tube containers full of black, thin, sludge (clone jeremy's blood)

SLASH* *SLISH* *SLOSH* *SHLORSH* *SPLATTER

***machine spews out a big plastic bag out a bigger slot containing all sorts of purple, steaming flesh* (clone jeremy's flesh, edible btw, tastes like chicken)**

Jeremy: MMMMM!!! More black KFC!!!

Abcde: ew…

Jonathan: YAAAY!!! I hope you control the population!

Josh: *nervous* I kinda have a bad feeling about this… but I love it! You gotta put a bunch around town, it'll make us rich.

Jeremy: Actually, I think I'll build a big warehouse containing these machines, maybe in the industrial area. Yeah, that is a good idea…

Jonathan: yaaaay! Fame here I come!

Jeremy: no jonathan , not yet, this machine took 3 years to build, so just imagine how long it'll take to make a factory of them, also, i won't be slaughtering all new clones, i will only slaughter the violent ones, and in order to get rid of the violence, i will make every clone, (except jeremy jr, billy, ira, ellie and the little jeremy's), sign a form to collect some information, and once they (or their parent if under 18) signs the form with their signature, the past actions MAY start to count, most likely past actions within the past year, and if they're violent enough, into the slaughter machine they go!

Jonathan: Can I help you!

Jeremy: Of course you can! You ARE the 2nd main character of this series anyway!

Jonathan: YAAAAAAYYY!!!!

THE END!

Episode 2 coming soon…
